The Comenius-project-group „H2O-Resources“ near the „House of Water“ in Santomera, Spain

The aim of the H2O-Resources partnership is that all participating partners will promote the awareness of people and pupils on how water is used in their region and examine various incentives that may be employed in order that the consumers are motivated to use less water in their every day lives thus conserving water and contributing towards sustainable development. In addition, each partner will examine the use of water in their area for industrial, domestic and agricultural purpose. Website: www.h2o-resources.eu

Participating schools:

- Laniteio Lykaio A, Lemesos, Cyprus
- LYCEE Savary de Mauléon, Les Sable d'Olonne, France
- Franz-von-Lenbach-Schule Schrobenuhausen (München), Germany
- Istituto Professionale Statale "R.Gorjux", Bari, Italy
- I.E.S. "Poeta Julian Andugar" Santomera (Murcia), Spain
